Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The proposed amendment to p. 6, line 13, was not entered as the line number is incorrect. Applicant may correct the line number as he wishes. In any case, the material is deemed to be New matter.

The amendment filed 12-9-03 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: proposed amendment that replaced the paragraph on the beginning on p. 6, line 13, which includes the phrase "displacement curve. This results ...can clearly be seen." (last 4 lines of the proposed paragraph).

Applicant is required to cancel the new matter in the reply to this Office Action.

Claims 1-8 and 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1 (last 4 lines) and 10 ("discriminating and excluding ...mattress" on last 4 lines) include limitations that were described in the original filing of the application to a degree that do not allow for possession of the claimed invention. The original disclosure does not provide any suggestion of the explanation provided in the *proposed* amendment to p. 6, line 13, which has been deemed to be New Matter.

Art Unit: 2856

Claims 1-8 and 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1 (last 4 lines) and 10 ("discriminating and excluding ... mattress" on last 4 lines) include limitations that were described in the original filing of the application to a degree that not allow for possession of the claimed invention. (Please see NEW MATTER objection above.) The original disclosure does not provide any suggestion of the explanation provided in the *proposed* amendment to p. 6, line 13, which has been deemed to be New Matter.

Claims 1-8 and 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. *Once the new matter is cancelled* from the written specification, the result is that the disclosure does not explain how displacement is discriminated. Page 6 does not explain how to "exclude" (line 4 from bottom of the written specification) displacement of the base.

Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 13, "that base member" (line 2 from last) lacks antecedent basis.

Art Unit: 2856

Claims 11 and 13 contain allowable material in view of comments provided on p. 13, lines 8-12 and 15-17 of REMARKS.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert R. Raevis whose telephone number is 571-272-2204.
